Time schedule – rev. 2

LMR/MOD.21.004 - rev. 0 del 2021-04-15

Devices for the measurement of integrated radon-222 activity concentration: aging/fading test over six exposures RNE.CR.AF.21.01	
Proficiency testing item	SSNDT devices with CR-39
Measurand	Integrated Radon activity concentration $\text{kBq}\cdot\text{h}\cdot\text{m}^{-3}$
Radionuclide	Radon-222
Minimum number of participants	10
Maximum number of participants	20
Time schedule	
Registration opening	15/05/2021
Registration deadline	05/06/2021
Deadline for devices delivery	30/06/2021
Deadline for invoice payment	31/10/2021
Returning devices to participants First lot (2 sets)	31/07/2021
Deadline for sending devices results First lot (2 sets)	26/09/2021
Preliminary results for first 2 sets*	31/10/2021
Returning devices to participants Second lot (4 sets)	19/12/2021
Deadline for sending devices results Second lot (4 sets)	28/02/2022
Report publication	15/04/2022
Certificates of Participation emailed	From 15/04/2022
Proficiency testing document	
Instruction for devices shipment	05/06/2021
Instruction for devices results	31/07/2021
Proficiency testing report	15/04/2022

(*) The preliminary results are sent if the invoice has been paid
