## LIST OF DEVICES UNDER PROFICIENCY TESTING

LMR/MOD.21.010 - agg. 0 del 2021-04-15

### Proficiency testing RNE.AL.DL.22.03

Devices for measuring air radon concentration integrated in time,  
test on four exposures

The PDF document is fillable. To the left of the label "Bag 1" there is the box to enter the code of the group of devices (DXY). By inserting the code here, the first column of all the tables is automatically filled.

Then fill the "Code given by the participating lab" column for all four tables, corresponding to the four bags.

For electrets, only seven devices for each bag.

Group code	- Bag 1	
Code of each item under test	Code given by the participating lab	Note (to be filled by the organizer)
-01		
-02		
-03		
-04		
-05		
-06		
-07		
-08		
-09		
-10		
-11		
-12		

Legend to column "Note":

*A: opened device*

*B: noisy if shaken, likely off-site detector*

*C: other issue, sent an explanatory e-mail to the participant*

Group code	- Bag 2	
Code of each item under test	Code given by the participating lab	Note (to be filled by the organizer)
