TIME SCHEDULE

LMR/MOD.21.004 - agg. 1 del 2022-12-01

Devices for the measurement of integrated radon-222 activity concentration over three exposures at very low levels of exposure Proficiency testing accredited by ACCREDIA (Italian accreditation service) based on UNI CEI EN ISO/IEC 17043:2010	
Proficiency testing code	RNE.AL.LE.25.04
Proficiency testing item	Devices for the measurement of the integrated radon activity concentration
Measurand	Integrated radon activity concentration $\text{kBq} \cdot \text{h} \cdot \text{m}^{-3}$
Radionuclide	Radon-222
Exposure range	30 – 300 kBq h m^{-3}
Minimum number of participants	6
Maximum number of participants	30
Time schedule	
Registration opening	03/10/2025
Registration deadline	14/11/2025
Deadline for devices delivery	19/12/2025
Deadline for invoice payment	15/05/2026
Returning devices to participants	31/03/2026
Deadline for sending devices results	30/04/2026
Report publication	05/06/2026
Certificates of Participation emailed	05/06/2026
Proficiency testing document	
Instruction for devices shipment	17/11/2025
Instruction for devices results	01/04/2026
Proficiency testing report	05/06/2026
