## LIST OF DEVICES UNDER PROFICIENCY TESTING

LMR/MOD.21.010 - agg. 0 del 2021-04-15

### Proficiency testing RNE.AL.DL.25.03

Devices for measuring air radon concentration integrated in time,  
test on three exposures

The PDF document is fillable. To the left of the label "Bag 1" there is the box to enter the code of the group of devices (DLXY). By inserting the code here, the first column of all the tables is automatically filled.

Then fill the "Code given by the participating lab" column for all three tables, corresponding to the three bags
